05 · Conditions for the warranty to apply

- 01** Installation, start-up and operation follow the manual; commissioning was performed by an authorised Boilte partner.
- 02** A service contract is in force, scheduled maintenance is performed on time and confirmed by reports and the log.
- 03** Water treatment is in operation; the water parameters and the fuel type match the product passport.
- 04** Only original or written-approved components and consumables are installed.
- 05** Equipment with telemetry stays connected to the Digital Twin system.
